

Model N

Model N's Managed Service for Analytics

Managed Service for Analytics

Model N's Managed Service for Analytics further enhances manufacturer's analytics capabilities and maximizes value from Model N's Intelligence Cloud.

Key capabilities

- Reports and dashboards
- Design and report specification documents
- Maintenance and updating of existing reports
- Ad-hoc data pulls and analysis
- Support from Model N data experts
- Support from Model N report experts
- On-demand model that does not require a new statement of work for each change and/or dashboard

Benefits

- Keep reporting regular and current as the needs of the business grow and evolve
- Ensure KBQs and KPIs are current
- Reduce operational overhead
- Benefit from ad hoc data pulls and analysis to extend the application's capabilities by leveraging business analyst expertise
