Introduction

In a world where business changes are the only constant, and maximizing revenue can’t be missed, ensuring a well-trained team who knows how to maximize its Model N investment is key. Quickly finding, learning and applying information can provide a faster return on investment (ROI), more productivity, and requires less support. So, how do you and your team gain the product experience and knowledge without sacrificing valuable time and resources? And how do you sustain it over time?

Model N offers the Learning Library

A subscription-based offering from our education team giving you and your company the flexibility of accessing training in your own private, secure portal. Customize your Library by adding your own content and other valuable information, and if you need more, partner with Model N to design the perfect solution for your organization.

Knowledge and Training when you need it - Anytime, Anywhere

Model N Learning Library provides a cloud-based, mobility responsive, learning experience delivering the latest content on various Model N products and topics.

With Model N’s Learning Library, you have:

- **Collaborative**: variety of topics for practical skills building, advanced topics and curated presentations.

- **Customized**: combine our product training with your own work instructions and business processes.

- **Effective**: depth of Model N product knowledge and best practices in a central, easy to access location.

- **Flexibility**: work at your own pace anytime, from anywhere, moving within each course, reviewing and replaying as needed.

- **Convenient**: subscriptions automatically give you access to new content or releases when added by Model N.
The Model N Learning Library

Model N Learning Library provides our customers and partners with a comprehensive set of courses, offered in a variety of formats. Model N’s courses are highly modular and may be tailored to your specific needs. If you’re learning needs to be further customized to your business processes, Model N can create custom content development, providing the content to make your team’s success.

Additionally, as a Learning Library Subscriber your company has full access to:

- Design and Customize, a branded learning portal designed for your company
- Enable self-paced courses relevant to you and your role
- Add your own training contents such as documents, instructions, videos and more
- Create and automate learning plans for each unique user or role
- Produce assessments and certifications for library subscribers
- Monitor the progress of participants and their success with dashboards
- Report on how a subscriber is progressing with self-service reports

**Extensive Curriculum:** Train at your own pace with availability of our entire course portfolio.

**Cloud-Based Labs:** Access the same labs as in the classroom, delivered 24/7 on six continents.

**Certification Testing:** Validate your teams understanding with self-authored and OOB assessments: both knowledge and skills.

**Benefits**

Using Model N Learning Library, your organization will be able to gain applicable product knowledge and experience without sacrificing valuable time and resources.

**The Advantages Include:**

- Accelerating the knowledge and skills of your Model N end users.
- Staying up to date with Model N enhancements and best practices.
- Allow your organization to customize its own learning with your documents, links, videos, etc.
- Painless and easily onboard new users.
- Certifying each of your Model N users for operational excellence.

**What Customers Say...**

“Our organization is new to Model N so we have been using the new Learning Library extensively. We like that the site isn’t static; the material is kept up to date and relevant to our training requirements. From an admin standpoint the system is easy to navigate and the dashboards help us easily manage our teams.”
