Rebate Management

Model N’s Rebate Management solution is a cloud-based solution offering enterprise-grade management of rebates and incentives.

**BENEFITS**

| ALIGN PARTNERS and customers with sales goals |
| REDUCE revenue leakage | IMPROVE VISIBILITY and control over rebate programs |
| LOWER COSTS of administering rebate programs | INCREASE channel sales |

Model N Rebate Management helps High Tech companies establish rebate programs that drive consumption and improve market share. The solution will also help companies eliminate over-payments and compliance exposure by automating rebate management processes, from setting up rebate programs on contracts and calculating and managing rebates as they accrue to enabling accurate and timely payments to eligible customers.

Model N Rebate Management eliminates errors and potential overpayments by ensuring the accuracy of payment processing rules and conditions. It supports complex rebate terms, allowing sales to develop compelling programs that maximize market share. It ensures regulatory compliance by providing full auditability and management of business processes, and provides risk mitigation by ensuring that payments are paid only after proper review and approvals.

**Model N Rebate Management**

Built natively on the Salesforce platform, Model N Rebate Management simplifies the creation and management of rebate and incentive program types. Rebate Management enables channel managers to align partners with channel strategies using incentives based on volume, revenue, time of sale, product family, regions and other business factors as presented by actual performance and sales data. With Model N Rebate Management, companies like yours can:

- **Reduce revenue leakage and increase sales**—Create, manage, and analyze rebate programs more accurately and effectively and empower channel, sales, and marketing teams to deploy new rebate and channel incentive strategies.
- **Improve visibility and control**—Provide channel managers, sales, and marketing with a complete view of rebates and channel incentives across the organization or for a particular partner or customer.
- **Lower administration costs**—Significantly reduce the manual administration required to enable successful rebates by automating complex rebate earning and payment calculations and by providing program transparency to partners and customers alike.
Model N Rebate Management helps High Tech companies establish rebate programs that drive consumption and improve market share. The solution eliminates over-payments and compliance exposure by automating rebate management processes.

Rebate Management allows companies to set up rebate programs on contracts and calculate and manage rebates as they accrue. You can enable accurate and timely payments to eligible customers.
