

Optimize revenue and ensure compliance across a rapidly evolving Medicaid landscape

A flexible and scalable SaaS solution, Model N Medicaid enables you to efficiently comply with all government rebate calculation and reporting requirements, operationalize the end-to-end Medicaid rebate process, and access key insights to drive strategic decisions.

Accurate unit rebate calculation

Automate the quarterly unit rebate amount (URA) calculation by leveraging the average manufacturer price (AMP) and best price (BP). Access 50 preloaded formulas and create custom formulas for new calculations, state programs, or supplemental programs.

Automation of invoice retrieval

Automated retrieval of Medicaid invoices and claims allow for faster and more accurate rebate processing

Efficient claims processing

Model N Medicaid performs validation tests on submitted claims to identify outliers and invalid units. Generate Reconciliation of State Invoice (ROSI) and Prior Quarter Adjustment Statement (PQAS) reports, along with a consolidated payment package.

Compliant with government regulations

Stay up to date with Regulatory Update Packs (RUPs), including new Medicaid Drug Rebate Program (MDRP) file formats or updates to URA calculations.
