Process

See improved accuracy in claims processing, rebate calculations, verifications, and reporting.

Technology

Benefit from state-of-the-art technology without the need to manage it yourself.

Reduce overpayments and maximize revenue from commercial contracts

Provider rebates

Manage complex programs and membership rollup evaluations.

Payer rebates

Validate script-level data in a short payment timeframe.

Leverage unparalleled commercial ops expertise

\$800M+

in commercial rebates and fees for nearly 100 drugs processed annually

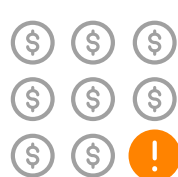

4.5M

chargeback lines processed annually

2-3%

of total requested rebate dollars saved through script-level validations and formulary reviews

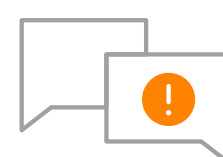

Maximize efficiency and savings by outsourcing Medicaid processing

Medicaid has more than 250 state programs, invoicing at the label code level.

States overbill frequently – sometimes \$100K or more.

Disputes pile up and resolving them is time consuming and manually intensive.

Let our Medicaid experts address these compliance challenges

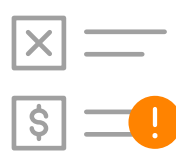

\$1.6B+

in annual Medicaid claim payments processed on behalf of 42 manufacturers and more than 80 labelers

16,800+

Medicaid and AIDS Drug Assistance Program (ADAP) invoices processed annually

Eliminate risk of federal government audits, fines, and penalties

Inaccurate reporting and government pricing non-compliance can result in million-dollar fines.

Ensuring auditable, accurate, and efficient processes becomes difficult with the volume of data.

Without scalability and flexibility, it's impossible to address business, market, and regulatory changes.

Streamline your government pricing calculations, reporting, and verifications

1, 7, 2

Efficiently meet all reporting requirements – 1 monthly, 7 quarterly, 2 annually

2B+

2+ billion transactions processed annually

Discover how Model N Revenue Management Services can help you stay ahead of ever-changing regulations and optimize revenue from commercial contracts.
