Model N

Navigate the growing complexity of 340B and Maximum Fair Price

As the 340B Drug Pricing Program evolves and Medicare Maximum Fair Price (MFP) requirements expand, manufacturers face growing challenges with regulatory compliance, duplicate discounts, payment operations, and cross-program coordination.

Model N 340B and MFP Advisory Services combines deep industry expertise, proactive regulatory intelligence, and technology-backed insights to help you address the financial and operational complexities of these programs.

Expert guidance for an evolving drug pricing landscape

Our subject matter experts (SMEs) combine extensive revenue management experience and specialized drug pricing knowledge to help you anticipate regulatory changes, address operational challenges, and strengthen program oversight.

We help you understand how 340B and MFP intersect and work with you to identify opportunities to increase claims-level visibility, prevent duplicate discount risk, and strengthen cross-program coordination.

340B policy and program strategy
Address evolving 340B requirements, claims collection policies, contract pharmacy considerations, and duplicate discount risks.

MFP strategy and implementation
Develop processes to meet MFP requirements, streamline payment workflows, and support coordination across drug discount programs.

Policy development and operational guidance
Establish practical policies and processes to support ongoing program management and adapt to changing requirements.
